

# DATA PLANNING DETAILS

From the selected Learning Questions, identify which data sources will be most useful for the workshop, mark them as 'Required' and assign them to a team member for assembling. If possible, suggest a presentation method, or content focus for the data (e.g., just demographics in the baseline, select indicator results, particular PDM questions, etc.).

REQUIRED	DATA SOURCE	ASSIGNED TO	SUGGESTED PRESENTATION METHODS OR CONTENT[1]
	Agricultural Season Calendar		
	Baselines/assessments		
	Budgets		
	CARM Results		
	Change logs/Issues log		
	Cluster data and reports		
	Conflict and/or Security Assessments; Crisis Analytics if available		
	Coordination meeting minutes and attendance		
	Exit Strategies/Handover Records		
	GEDSI reports		
	Gender/Protection Assessment		
	IPTT		
	Logframe		
	M&E Records/Monitoring Reports
