

HuMEL.

Humanitarian
Monitoring,
Evaluation,
& Learning

What is HuMEL?

HuMEL is learning network for M&E practitioners, centered around humanitarian contexts. The HuMEL forum invites implementers, donors, and other stakeholders to engage in sharing best practices, failures and experiences; aiming to promote knowledge sharing across stakeholders and improve the quality of M&E in emergency programming.

How can you get involved?

HuMEL hosts quarterly webinars on topics that have been suggested by members of the forum. Webinars are open to the public and members are encouraged to present and share their own experiences. Visit the [HuMEL site](#) for more information- including past webinar materials and the HuMEL resource library.

Want to be invited to HuMEL events? Have an idea for a webinar? Contact humelmanagement@gmail.com with questions and feedback.
