What is HDP Coherence?

“HDP coherence aims to promote complementary collaboration across humanitarian, development, and peace actors in pursuit of a common agenda. Its goal is to maximize impact and sustainability of programs across different kinds of assistance and to reduce the need for humanitarian assistance (HA) over time.”

- USAID's Programming Considerations for Humanitarian-Development-Peace (HDP) Coherence: A Note for Implementing Partners

USAID's Key Principles for HDP Coherence

- Uphold and respect **humanitarian principles** to ensure humanitarian assistance remains unhindered and effective.
- Plan jointly and seek a **common agenda**.
- Create and strengthen **communication, coordination, and learning** platforms across different kinds of assistance.
- Strategically **sequence, layer, and integrate** humanitarian, development, and peace assistance where appropriate.
- Promote **shock-responsive programming** and data-driven adaptive management.
- Champion **conflict integration** and opportunities for enabling or building peace where possible.
- Ensure programming is **with, by, and through local partners** and systems.

Please share in one word what you think is an important thing to consider in working towards HDP coherence

What was the Greater Horn of Africa RKSM?
