The TOPS Program was made possible by the generous support and contribution of the American people through the United States Agency for International Development (USAID). The contents of this newsletter do not necessarily reflect the views of USAID or the United States Government.

The FSN Network is being spearheaded by TOPS, a USAID/FFP funded program seeking to build the capacity of FFP grantees and other food security and nutrition implementers. The program is working to improve the quality of implementation through fostering collaboration, innovation, and knowledge sharing around food security and nutrition best practices. For more information about TOPS please click [here](#).
