Design for Resilience in Smallholder Farming Systems: Symposium and Consultation on Agroecological Principles, Design and Practice

January 21 – 22, 2015
Beacon Hotel, 1615 Rhode Island Ave, NW, Washington, DC 20036

This two-day event will allow sharing around principles, design and practices for building resilience in smallholder farming systems with a focus on farm system design and agroecological methods. The event will focus on application of the principles to enhance impact in Food for Peace programs.

Experts will join us for lively presentations, discussion, and consultation on the following key areas:

- Agro-ecological principles and impact on building resilience in smallholder farming systems
- Design strategies that incorporate agroecological principles
- Converting principles into practice
