Integrated Pest Management and Fumigation Safety Training

January 24–26, 2017
Kansas State University, Manhattan, Kansas
Training Objectives

1. Familiarize participants with the PEA and its annexes (i.e. Fumigation Quote request and Service Contract, Pesticide Evaluation Report and Safer Use Action Plan [PERSUAP] template, Fumigation Management Plan, etc.)

2. Train participants on IPM techniques for management of insects and vertebrate pests

3. Train participants on proper use of residual insecticides and proper and safe use of the fumigant phosphine

4. Train participants to properly use respiratory protection
5. Train participants on phosphine gas monitoring devices
6. Demonstrate proper warehouse and containerized fumigation
7. Introduce participants to the WSSG
8. Prepare participants for field level roll-out trainings (to be conducted by participants)

Materials Available on FSN website:

The following will be uploaded in next few weeks:
- 12 videos on key topics
- 3 TOPS training powerpoints
- A couple of improved powerpoints from the KSU training (Intro to Pest Mgm’t, Gas Detection, Fundamentals of Effective Fumigation ).
This presentation was made possible by a grant from The Technical and Operational Performance Support (TOPS) Program. The TOPS Micro Grants Program is made possible by the generous support and contribution of the American people through the U.S. Agency for International Development (USAID). The contents of the materials produced through the Micro Grants do not necessarily reflect the views of TOPS, USAID, or the U.S. Government.
